

DINESH WADHWANI

Senior Engineering Leader | AI & LLM Transformation | GCC Build & Operations | Cloud | Multi-Tenant SaaS
Customer Experience | Payments & Fraud | Education | Health and Insurance

+91 9767 6767 38 | dinesh.k.wadhwani@gmail.com | [linkedin.com/in/dineshkwardhwani](https://www.linkedin.com/in/dineshkwardhwani) | Pune, India | Open to All Roles/Locations

PROFESSIONAL SUMMARY

AI-driven Senior Engineering Leader with 25+ years progressing from engineer to Senior Director, building and scaling enterprise software organisations across **Customer Experience(CX), Payments & Fraud (Actimize), and Education**. Led Global Capability Centres of **400+ engineers across India, US, Europe, and APAC**. Deep expertise in leading **GCC teams, end-to-end product development and delivery ownership, operationalising LLM and Agentic/Generative AI**, driving cloud-native transformation and multi-tenant SaaS modernisation on Azure and AWS SaaS platforms with governance, security, and FinOps discipline. Accountable for **\$500M+ revenue influence at NICE, £125M at Capita, and \$100M+ at IBM** — a consistent track record of translating engineering excellence into commercial impact.

Built and scaled engineering organisations from the ground up, growing teams from **50 to 400+** across India, the US, Europe, and APAC — consistently achieving ESAT scores in the 90s and single-digit attrition, rare outcomes at this scale. Worked closely with global stakeholders across product, business, HR, finance, and operations to align engineering direction with commercial priorities, ensuring delivery outcomes that resonate at the CEO, board and executive level.

CORE COMPETENCIES & SKILLS

• LLM & Agentic AI at Enterprise Scale, Generative AI	• GCC Build, Scale & Full Operations	• Large-Scale Team Leadership (400+)
• AI/ML Operationalization & MLOps	• Multi-Tenant SaaS Architecture	• People Management & Org Development
• Payments, Fraud & Financial Crime, Compliance	• SaaS, Cloud-Native Modernization (Azure/AWS)	• Global Team Leadership (India/US/EU/APAC)
• Revenue Scaling & Commercial Ownership	• HR Ops, Fin Ops & IT Ops Governance	• High ESAT & Single-Digit Attrition
• Budget & P&L Ownership	• DevOps, FinOps & Engineering Excellence	• Product Engineering

PROFESSIONAL EXPERIENCE

Senior Director, R&D | NICE Ltd — Pune GCC | September 2021 – Present

Customer Experience (WFM) · Actimize (Payments & Fraud · Financial Crime) · 400+ engineers · 5 product lines · India / US / Europe / APAC

- **Revenue & Business Impact:** Influencing \$500M+ in annual revenue across CX workforce management (forecasting, scheduling, adherence, quality, recording) and Actimize financial crime and fraud detection product lines.
- **AI & LLM Transformation:** Operationalised LLM and Agentic AI capabilities across CX and Actimize portfolios on Azure/AWS multi-tenant platforms, RAG pipelines, AI agents for quality evaluation and fraud signal detection, prompt governance frameworks, MLOps, cost controls, and 99.9x availability SLA. Extensively used Agentic and Generative AI.
- **People Leadership & Culture:** Built and sustained a 400+ person global R&D organisation (India, US, Europe, APAC) with ESAT consistently in the 90s and single-digit attrition — sustained over multiple years through structured career frameworks, leadership development pipelines, and engineering culture programmes.
- **GCC Operations:** Full GCC accountability spanning engineering delivery, HR Ops (workforce planning, performance management, L&D), Fin Ops (P&L, budget stewardship, vendor optimisation), and IT Ops (infrastructure governance, toolchain, FedRAMP compliance).
- **Engineering Excellence:** Drove DevOps at scale, observability, Agile/SAFe governance, and platform modernisation across 5 product lines, improving release velocity, quality, and operational resilience while reducing cost per delivery unit.
- **Cross-Domain Integration:** Directed cross-product integration between CX and Actimize portfolios, enabling unified AI-driven insights for global enterprise clients across banking, financial services, telecom, and retail.

Head of Engineering — GCC India | Capita SIMS (India) Pvt. Ltd. | May 2016 – September 2021

Education Software (SIMS) · £400M business · 20,000+ schools · India / UK / Europe · Full GCC ownership

- **Revenue & Strategic Ownership:** Directly influenced £125M in annual revenue as GCC Head — owning end-to-end product roadmap, engineering delivery, and operational execution aligned with UK product and business leadership.
- **Domain — Education at Scale:** Engineered and scaled the SIMS platform, the UK's leading school MIS solution serving 20,000+ educational institutions with MIS analytics, reporting, curriculum management, and ecosystem integrations.

- **People & Culture:** Maintained ESAT in the 90s and single-digit attrition across the India GCC through talent density programmes, structured L&D, internal mobility, and a high-performance engineering culture — across a distributed team spanning India and the UK/Europe.
- **GCC Operations:** End-to-end GCC operating model — HR Ops (hiring, performance management, workforce planning), Fin Ops (cost centre P&L, vendor management, budget governance), and IT Ops (infrastructure, security, toolchain) in partnership with UK central functions.
- **Delivery Excellence:** Scaled multi-product delivery across distributed teams, strengthening release predictability, observability, QA maturity, and cost efficiency — driving measurable improvement in time-to-market and platform stability.

Senior Manager, Product Development | IBM India Pvt. Ltd. | March 2010 – May 2016

Procurement & Spend Management · 3 enterprise platforms · 100+ engineers · Joined via Emptoris acquisition

- Joined IBM through the acquisition of Emptoris (Director of Engineering) and progressively expanded scope from one product to three revenue-generating IBM Smarter Commerce platforms — Contract Management, Sourcing, and Spend Analysis — driving **\$100M+ in annual business impact**.
- Led distributed 100+ engineer organisation across product strategy execution, release governance, SaaS platform modernisation, and architectural standardisation — serving global enterprise clients including AMEX, FedEx, Citi, Cisco, Avery, Turner, and GE.
- Institutionalised Agile delivery governance, DevOps toolchain adoption, and engineering excellence frameworks across distributed teams spanning India, US, and Europe.

Earlier Career

Engineering Manager — Coreobjects India	Oct 2008 – Mar 2010	1.5 yrs
Program Manager — Xpanxion International	Jan 2006 – Sep 2008	2.5 yrs
Development Lead — Zensar Technologies	Mar 2002 – Jan 2006	4 yrs
Software Developer — Ajilon LLC / Diaspark Inc. / Power Infosys	Jul 1997 – Mar 2002	~5 yrs

TECHNOLOGY STACK

Cloud	Microsoft Azure · AWS · IBM Cloud · Kubernetes · Docker · Serverless · Multi-Tenant SaaS · Cloud-Native Architecture
AI / LLM	LLM Operationalization · Agentic AI · Generative AI · RAG Pipelines · MLOps · AI Governance · Prompt Engineering · Fraud AI · Quality AI
Architecture	Microservices · Event-Driven · Distributed Systems · REST APIs · DevOps & CI/CD · Observability & SRE · Legacy Modernisation
Languages	Java · Python · C# · C/C++
Frontend	React · Angular · Typescript · JavaScript (ES6+) · HTML5 · CSS3
Data	Oracle · DB2 · MySQL · PostgreSQL · MongoDB
Enterprise	SAP R/3 (ABAP) · Enterprise Integrations · Apache · Tomcat · JBoss · WebSphere · IIS
Toolchain	IntelliJ · VS Code · Git · Jenkins · JUnit · Agile/SAFe Tooling

PATENTS & INTELLECTUAL PROPERTY

Granted Patent: US US12645831: System and Methods for providing interactions with removed personally identifiable information (PII) are disclosed, involving extracting from an interaction recording using an automatic speech recognition engine powered by Artificial Intelligence.

Patent Disclosures Filed: INV/0700: Intelligent Supervisor Task Orchestration and Triaging Using Real-Time Urgency and Availability Signals: AI urgency coefficient engine for dynamic supervisor alert prioritisation (Disclosure Approved, proceeding to patent attorney, 2026).
INV/0549: System and Method to Assist Continuous Quality Improvement (AQM) — GenAI-powered real-time insights for Quality Managers in contact centres (co-inventor, filed 2024).

EDUCATION & CERTIFICATIONS

MBA (Systems & Marketing) : Indore University, 1998	Certified SAFe Practitioner · Certified Agile Coach
Bachelor of Science : Indore University, 1995	Certified Scrum Master (CSM) · PMP Certified
Hons. Diploma in Systems Management : NIIT Indore, 199	Sun Certified Java Architect · Sun Certified Java Developer
